PROFILE

After eight years of experience in supply chain management, I made a strategic decision to transition into the digital world. This career shift has allowed me to acquire diverse skills across several key areas, including fullstack development, functional analysis, scrum methodology, and UX/UI design. My strong curiosity and eagerness to learn have enabled me to continuously expand my knowledge and develop a holistic understanding of digital project management. I am committed to leveraging this multifaceted expertise to drive innovation and deliver value in dynamic digital environments.

SKILLS

- **Frontend** : Html, Css, Javascript, React Js, React Native, Next js, Expo Go
- **Backend + database** : SQL, No-SQL, PostgreSQL, Mongo Db, Node Js, Express Js

WORK EXPERIENCE

Web developer   (06/2024 - present)
Launch of my own activity of developement and creation of the project www.coinpack.app, a new way to pay its consumptions during events.

Functional Analyst / Scrum Master   (01/2024 - 06/2024)
Total Energies

As a Functional Analyst, I acted as the liaison between the business and a team of 8 developers, facilitating all Scrum ceremonies and ensuring alignment across various energy sector applications.

My responsibilties included: requirements gathering and translation (UML, BPMN), managing the Jira board, and coordinating developer tasks.

Functional Analyst / UX Designer   (03/2023 - 01/2024)
NN

The mission involved developing a new internal application for customer service, aimed at enhancing employee efficiency through a streamlined layout that integrates with various legacy systems.

My responsibilities included : leading user research, creating user stories and journeys, wireframing and prototyping, translating business requirements for the development team.

Supply chain manager   (09/2014 - 01/2023)
I worked for several years as a Supply Chain and Operations Manager, leading various projects including transportation and warehouse reorganization, ERP enhancements, regulatory compliance initiatives…
